RACE SUMMARY

For a Persistent Race

HOKKAIDO TRIATHLON has been on a search for a sustainable and persistent method to run the race. One conclusion we came to is to hold the race with minimum road blocks. This beautiful race venue is also land of agriculture and tourism. The race and other activities should not interfere with each other, they need to be good partners. Race participants must respect all road regulations during the race. Race organizers will place staff and signs along the race course.

Road Regulations

Road blocks is kept to a minimum for the race. Participants must respect and obey all road regulations during the race such as Stop Signs, Traffic Signals, Keep Left. Local Law Enforcement will be present at certain sections of the course to ensure safety of both race participants and local traffic. Details to be announced.

Penalty

Please stick to the traffic rules such as “Momentary Stop” and “Crossing and Turning right”

There are more than 18 intersections and you need to stop momentarily.

Momentary Stop means the wheels have to be stopped completely.

When making right at the intersection, you are not allowed to take centerline and you have to take left side along the street.

You will be punished as 30 minutes penalty when breaking the traffic rules

Safety Measures

Race Organizer will support the participants by preparing aid stations, course staffs, Doctors, Rescue, Life Savers, Ambulance, Sag Wagon etc. However, the race course is long and is difficult for the Organizer to oversee every single section. Safety is your responsibility. Please look after yourself.

ENTRY
